FIXED-RACK INCUBATION

SAME
FOOTPRINT AS
STANDARD
CLASSICS

The most advanced fixed-rack setter on the market designed for increased performance and simplicity of operation using our EclipseTM control system. With advanced airflow and interlocking panels to achieve excellent thermal uniformity.

- High capacity up to **100,980** eggs with 612 individual tray frames installed into the fixed-rack frame.
- Dual zone control with 8 fan assemblies and high capacity cooling coils.
- Each fan unit with a heating capacity of 1,200 watts (9.6kW for the entire machine).
- Greatest multi-stage heat capture in the industry.
- Highly uniform turning operated by 12 individual 24VDC actuators.
- Excellent thermal insulation and increased cabinet strength using interlocking panels and a PIR fire rated insulation core.
- Dual use system capable of multi-stage and single-stage operation.
- EcoMistTM** humidity spray system.
- Matches the same footprint as the standard Classic setter for simple replacement.
- Lower your power consumption and increase your fixed rack operation with the **SuperClassic**.

SETTER MODEL	CAPACITY		DIMENSIONS (mm)		
	54 tray	165 tray	Width	Depth	Height
SC576	93,312	95,040	3798	6604	3105
SC612	99,144	100,980	3798	6604	3215

HATCHER MODEL	CAPACITY		DIMENSIONS (mm)		
	54 tray	165 tray	Width	Depth	Height
