

T3 Cooling Upgrade

FOR CHICK MASTER CLASSICS

TRIPLE FLOW COOLING SYSTEM (T3) with 24V and dual-valve cooling per section that guarantees a 17°C water operating temperature.

When your eggs are getting hot and temperatures are out of balance, give them the "T3" cooling from EmTech.

The assembly comes complete with:

Four x 16 Row Cooling Coils, Solenoid Board, Return Manifold and all necessary Connection Tubes

THE
INDUSTRY'S
MOST EFFECTIVE
COOLING

Dramatically reduces artificial humidification and unwanted coil condensation while saving chiller power consumption. Immediate **STABILITY** of incubator conditions.
